

TELEPHOTO LENS

Samyang telephoto lenses provide you with an optically 'closer' position to inaccessible subjects and allow you to modify the perspective.

Their light weight and compact design permit hand-held operation in most cases.

We offer telephoto lenses of variable focal lengths in our complete series of Samyang lenses.

500mm F8.0 Preset

- Construction: 4 elements in 4 groups
- Angle of view: 5°
- Minimum Focusing Distance: 10m [33ft]
- Filter size: 67mm
- Diameter x Length, Weight: \varnothing 70 x 298mm, 640g

500mm F8.0 ED

- Construction: 5 elements in 4 groups
- Angle of view: 5°
- Minimum Focusing Distance: 10m [33ft]
- Filter size: 67mm
- Diameter x Length, Weight: \varnothing 70 x 310mm, 575g

500mm F8.0 ED Preset

- Construction: 5 elements in 4 groups
- Angle of view: 5°
- Minimum Focusing Distance: 10m [33ft]
- Filter size: 67mm
- Diameter x Length, Weight: \varnothing 70 x 310mm, 665g
